Healthcare Industry

Healthcare professionals are always looking for ways to improve the delivery of services. Caring for your patients is your number one concern, but why not consider the total patient experience? By making the payment process easy, you not only increase patient satisfaction, you'll also improve your profitability.

FDIS Empire has a proven track record for helping healthcare providers of all sizes benefit through our complete transaction processing solution. What's more, we meet and exceed industry standards for security by meeting the requirements of the Card Industry Standards Program (CISP) and verified as Payment Card Industry (PCI) compliant.

Most healthcare organizations offer a variety of payment options; while this addresses the variety of payment preferences, it also creates additional administrative work, complicates reporting and increases costs of payment processing. FDIS Empire can help streamline the processing, improve and consolidate reporting, and reduce costs by offering a solution for every type of payment you receive. We're the only provider you'll ever need for your transaction processing.

Real-Time Credit/Debit Card & Electronic Check Processing

- Support for all major credit cards
- Check verification and conversion
- Powerful recurring transaction features
- State-of-the-art re-presentment functions
- Multiple merchant processing account support
- Process transactions through a safe, secure channel
- Comprehensive security and reporting features

We understand the healthcare business and have the experience to develop a customized solution for your organization. Call us at 866.838-8472 or e-mail sales@fdisempire.com.
